DETAILED ACTION

Claim Objections

1. Claims 33 and 45 are objected for the following reasons.
 - (a) In claim 33, an improper period has been inserted after the second line.
 - (b) In claim 45, line 2, "isvinyl" should be -- is vinyl --.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 33, 39 and 47 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

(a) In claim 33, a broad range or limitation together with a narrow range or limitation that falls within the broad range or limitation (in the same claim) is considered indefinite, since the resulting claim does not clearly set forth the metes and bounds of the patent protection desired. See MPEP § 2173.05(c). In the present instance, the claim includes the broad recitation "between about 10 000:1 and about 1:100", and the claim also recites "between about 100:1 and about 1:1" which is the narrower statement of the range/limitation. Subset ranges are best set forth in a subsequent dependent claim.

(b) Claim 39 contains the trademark/trade name vinyl versatate. Where a trademark or trade name is used in a claim as a limitation to identify or describe a particular material or product, the claim does not comply with the requirements of 35 U.S.C. 112, second paragraph. See *Ex parte Simpson*, 218 USPQ 1020 (Bd. App. 1982). The claim scope is uncertain since the trademark or trade name cannot be used properly to identify any particular material or product. A trademark or trade name is used to identify a source of goods, and not the goods themselves. Thus, a trademark or trade name does not identify or describe the goods associated with the trademark or trade name. In the present case, the trademark/trade name is used to identify/describe vinyl versatate and, accordingly, the identification/description is indefinite.

(c) Claim 47 recites the limitations "the polyethylenically unsaturated monomers" and "the monoethylenically unsaturated monomers". There is insufficient antecedent basis for these limitations in the claim because neither this claim nor the parent claim has indicated that any of the stated monomers are present.

3. Claims 30-32, 34-38, 40-44, 46 and 48-50 are allowed over the prior art currently of record.
